### INVESTMENT HIGHLIGHTS

- **Newer Construction with Low Maintenance Profile:** Three steel buildings constructed in 2018 and 2019 offer durable, low-overhead operations with minimal near-term capital requirements, making this an efficient asset for both local and out-of-market owners.
- **Strong Organic Occupancy with Upside Remaining:** The facility is 84% occupied with no active advertising in place, meaning current performance reflects pure demand. A basic advertising program represents a direct, low-cost path to full stabilization and revenue growth.
- **Accessible Management with Local Support:** A local, boots-on-the-ground referral is available to buyers, eliminating the operational friction that often deters remote ownership.
- **Stable Iowa Demand Base:** Oskaloosa anchors Mahaska County as the regional county seat, with consistent storage demand driven by William Penn University, local manufacturing and healthcare employment, and the surrounding rural trade area.
